

Monthly Indicators

October 2019

In October, mortgage rates increased slightly from the three-year lows seen in September. While the Federal Reserve reduced the federal-funds target rate by .25%, this decline was widely expected and largely factored into mortgage rates already, which are still approximately 1% lower than this time last year. Fannie Mae is predicting that continued low rates, and possibly lower rates, are expected in 2020.

New Listings increased 2.8 percent for Single Family but decreased 2.3 percent for Townhouse/Condo. Pending Sales increased 17.9 percent for Single Family and 19.3 percent for Townhouse/Condo. Inventory decreased 19.9 percent for Single Family and 13.4 percent for Townhouse/Condo.

Median Sales Price increased 8.7 percent to \$250,000 for Single Family but decreased 3.0 percent to \$160,000 for Townhouse/Condo. Days on Market decreased 5.1 percent for Single Family and 22.9 percent for Townhouse/Condo. Months Supply of Inventory decreased 25.0 percent for Single Family and 12.5 percent for Townhouse/Condo.

As we begin the slower time of year for home sales, historically low mortgage rates will continue to support buyer demand and may create additional lift to home prices as excellent affordability gives buyers the ability to offer more to secure their dream home. Throughout much of the country, the continued low level of housing inventory also continues to constrain sales activity from where it would likely be in a balanced market.

Housing Affordability Index

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

October

Year to Date
